

Precision meets innovation

Leaders in Building Measurement & As-Built Documentation

Full site documentation package in 3 easy steps

Kick-off

Tell us about your project (project purpose, desired elements, location) to get started.

Site Visit

Our local Field Technician will visit your site(s) to collect, scan and document the property.

Delivery

We'll deliver your Site Report with downloadable drawing files and links to your virtual walkthrough.

Our Value

Advanced LiDAR Capture For Verifiable Point Cloud & Visual Data (~)

Drafting by Certified Engineering Technologists in CAD, REVIT & PDF (~)

Immersive 3D Digital Twin Tours with Interactive Space Navigation (\checkmark)

Precise Location & Comprehensive Building Services and Equipment Details

Enhanced Virtual Communication & Measurement Tools

Efficient Capture By Onsite Survey Team & Fast Turnaround

EXAMPLE

Projects

EXISTING CONDITIONS REVIT

This project involved extensive interior & exterior renovations across 4 floors of living space in a 7,800 SF 1870's heritage home. We started the project with a detailed scan and survey of the building, collecting key measurements, structure and architectural details. We located, identified and documented the building mechanical, electrical and plumbing [M.E.P.] equipment.

- As-Built Floor Plans (RVT & PDF)
- Exterior Elevations Drawings
- Roof Plans
- 360° iGUIDE Virtual Walkthrough
- Building Equipment Photos & Tags

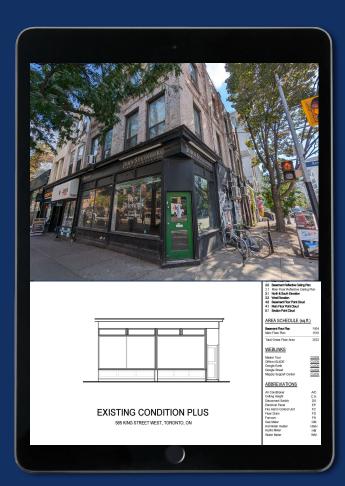

EXISTING CONDITIONS PLUS

This project involves a complete interior renovations and fit-out to convert this former 2,500 SF beauty salon into a bar and restaurant building in Toronto.

- As-Built Floor Plans (DWG & PDF)
- Exterior Elevations Drawings
- Reflected Ceiling Plans
- 360° iGUIDE Virtual Walkthrough
- Building Equipment Photos & Tags

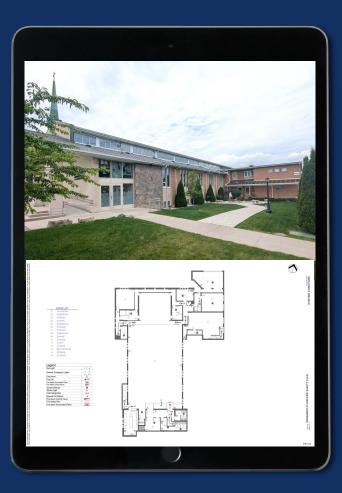

EXISTING CONDITIONS PLUS + FIRE EQUIPMENT

This project involves updating the as-built floor plans and capturing the fire safety equipment for this 23,000 SF church in Toronto.

- As-Built Floor Plans (DWG & PDF)
- Reflected Fire Safety Equipment Plans
- 360° iGUIDE Virtual Walkthrough
- Building Equipment inc. Fire Safety Photos & Tags
